Strong internal SOPs built for federal compliance	Built for long-term performance, not one-time wins

RELEVANT EXPERIENCE & QUALIFICATIONS

Bluecrest is an emerging federal contractor with no prior govcon past performance — and we say that directly because integrity matters more to us than optics. What we bring instead is a foundation that reflects the standards federal work demands:

- U.S. Army Fire Support Specialist (medically retired) — 10 years coordinating time-sensitive operations across multiple teams, managing assets and personnel under strict performance standards, and executing mission requirements with zero margin for error.
- Operational experience managing personnel, equipment, and logistics on military installations — including the coordination, scheduling, and quality oversight that federal service contracts require.
- Built Bluecrest Federal Support LLC from the ground up — SAM registered, SDVOSB certified, and fully compliant — with internal SOPs, subcontractor agreements, and quality control processes already in place before award of the first contract.
- Regional vendor relationships across Indiana and the Midwest supporting grounds maintenance, janitorial, and facility services — enabling responsive, local execution without the overhead of a large organization.

We are actively pursuing our first federal contract and committed to building a CPARS record that reflects the same standard we held ourselves to in uniform.
